

Pupil Premium Strategy Statement

Moorside Primary School and Nursery

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had at Moorside Primary School and Nursery

School overview

Detail	Data
School name	Moorside Primary School and Nursery
Number of pupils in school	165
Proportion (%) of pupil premium eligible pupils	32%
Academic year/years that our current pupil premium strategy plan covers	2021-2024
Date this statement was published	November 2021
Date on which it will be reviewed	January 2022
Statement authorised by	Claire Rowett (Headteacher)
Pupil premium lead	Claire Rowett (Headteacher) and Rachel Taylor (Pupil Premium Champion)
Governor / Trustee lead	Peter Fleming (Governor lead for Pupil Premium)

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£75,000
Recovery premium funding allocation this academic year	£3125
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£78,125

Part A: Pupil premium strategy plan

Moorside's Rationale and Intent

At Moorside, we use our pupil premium funding to support all children who are vulnerable at different stages in their lives through a range of approaches. Our intention is that all pupils, irrespective of their background or challenges, make good progress from their individual starting points across our curriculum. They will acknowledge their strengths, whilst developing positive learning behaviours to support them now and in the future.

Our pupil premium spending has been allocated based on research and evidence of impact from previous years, to meet the needs of our current children. As a school, we use a 'keep up, not catch up' approach, to ensure that children are accurately assessed from their individual starting points and targeted intervention is provided to meet their needs, both educationally as well as their well-being.

First and foremost, high quality teaching and learning through an enriching curriculum is at the forefront of our approach to supporting our pupils, with specialist teaching staff to deliver the curriculum and interventions. This will have a positive impact on not only disadvantaged pupils, but the wider vulnerable group of learners, by closing the attainment gap.

Our Pupil Premium Strategy is closely linked to our School Development Planning, which is monitored rigorously and reviewed termly, to ensure that the additional funding further enhances and supports personal development, behaviour, attendance and welfare for all our pupils.

Our strategy is also integral to wider school plans for education recovery, notably in its targeted support through Catch up funding, to support those pupils who have been worst affected by the impact of the pandemic and school closures.

Our approach will be responsive to common challenges and individual needs, rooted in robust assessment and observations, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- ensure disadvantaged pupils are challenged in the work that they're set
- act early to intervene at the point need is identified
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' well-being and academic outcomes and raise expectations of what they can achieve

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Assessments, observations, and discussions with pupils indicate underdeveloped oral language skills and vocabulary gaps among many disadvantaged pupils. These are evident from Reception through to KS2 and in general, are more prevalent among our disadvantaged pupils than their peers. This has an impact on their formulation of sentences for writing and is reflected in our writing data.
2	Our termly Boxall assessments indicate required targets to support individual children and specific cohorts where there are a higher % disadvantaged pupils (e.g. 52.4% in Y1) in improving their resilience and self esteem to develop a positive mindset and behaviour for learning. Nurture UK strategies and resources will support all staff with a shared vision to improve the social and emotional well-being of children (self-regulation).
3	Assessments, observations, and discussions with pupils suggest disadvantaged pupils generally have greater difficulties with phonics than their peers. This negatively impacts their development as readers.
4	Internal assessments indicate that Maths attainment among disadvantaged pupils is significantly below that of non-disadvantaged pupils in some year groups (specifically our current cohorts Y2 (40% PP), Y5 (31.8%) and Y6 (29.2% PP))
5	Assessments and data analysis evidences that children who do not read regularly at home require further support with keeping up in line with age related expectations in reading. Those who did not pass the phonics screening check first time or 'just' achieved the pass mark are at risk of falling behind if they are not targeted and tracked.
6	<p>Our attendance data over the last 3 years had shown improving trajectory for most pupil groups and the gap was closing, however, comparatively from 2020-21, the attendance for disadvantaged was 95.52% compared with non disadvantaged which was 97.11% and whole school attendance was therefore 96.64%.</p> <p>From September 2020-July 2021, The Persistent Absence for Pupil Premium is 13.95%. This equates to 6 children. Persistent Absence for non-disadvantaged is 6.31% which equates to 7 children.</p> <p>The impact of 2 school closures in 2019-20 and 2020-21 means that attendance has declined due to pupils being in isolation due to Covid-19. The current whole school attendance for the Autumn term 1 2021-22 has therefore been 92.32% (disadvantaged 89.82%). We must therefore engage parents to support children with their motivation for learning, well-being and attendance as a priority to maintain our previous success in raising and sustaining improving attendance.</p>

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improved oral language skills and vocabulary among disadvantaged pupils.	Assessments and observations indicate significantly improved oral language among disadvantaged pupils. This is evident when triangulated with other sources of evidence, including engagement in lessons, book scrutiny of 'Talk 4 Writing' approaches and ongoing formative assessment to ensure that writing outcomes are improving.
Improved phonics screening and reading attainment among disadvantaged pupils.	KS2 reading outcomes by 2024/25 are at least in line with or exceeding national data and children are making at least expected progress from their individual starting points.
Improved maths attainment for disadvantaged pupils at the end of KS2.	KS2 reading outcomes by 2024/25 are at least in line with or exceeding national data and children are making at least expected progress from their individual starting points.
To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantaged pupils.	Sustained high levels of wellbeing from 2024/25 demonstrated by: <ul style="list-style-type: none"> • qualitative data from student voice, student and parent surveys and teacher observations • a significant increase in participation in extra curricular and enrichment activities, particularly among disadvantaged pupils • reduced incidents that lead to internal or external suspension
To achieve and sustain improved attendance for all pupils, particularly our disadvantaged pupils.	Sustained high attendance from 2024/25 demonstrated by: <ul style="list-style-type: none"> • the overall absence rate for all pupils being no more than 4%, and the attendance gap between disadvantaged pupils and their non-disadvantaged peers being reduced by at least 7%. • the percentage of all pupils who are persistently absent being below national data.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £29,667.46

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Improve oral language skills for PP children, starting with early intervention and identification of children with barriers to learning related to speech, language and communication</p> <p>Forest school to improve communication and language skills as well as PSED.</p> <p>Talk 4 Writing Training and Implementation (whole school) – Whole school speaking and listening INTENT to be reviewed)</p> <p>NHS Speech and Language CPD – Whole school (Speaking and listening INTENT to be reviewed)</p>	<p>https://educationendowmentfoundation.org.uk/education-evidence/evidence-reviews/early-language</p> <p>According to evidence in the EEF toolkit, oral language interventions (Oracy) have some similarity to approaches based on Meta-Cognition, which make talk about learning explicit in classrooms, and to Collaborative Learning approaches, which promote pupils’ talk and interaction in groups.</p> <p>Overall, studies of adventure learning (Forest school) interventions consistently show positive benefits on academic learning. On average, pupils who participate in adventure learning interventions make approximately four additional months’ progress.</p> <p>There is also evidence of an impact on non-cognitive outcomes such as self-confidence.</p> <p>30 mins per day and 1 hour per week write up and planning – CB MR – 7 hours for assessments</p>	<p>1, 2</p>
<p>Ensure that all pupils ‘keep up; not catch up’ in line with age related expectations to improve outcomes in KS1 and KS2, particularly in reading, and achieve expected phonics outcomes at the end of Year 1.</p>	<p>Phonics approaches have been consistently found to be effective in supporting younger readers to master the basics of reading, with an average impact of an additional four months’ progress. Research suggests that phonics is particularly beneficial for younger learners (4-7 year olds) as they begin to read. Teaching phonics is more effective on average than other approaches to early reading (such as whole language or alphabetic approaches), though it should be emphasised that effective phonics techniques are usually embedded in a rich literacy environment for early readers and are only one part of a successful literacy strategy</p> <p>On average, reading comprehension approaches (we use Reading Plus and Reading Eggs) deliver an additional six months’ progress. Successful reading comprehension approaches allow activities to be carefully tailored to pupils’ reading capabilities, and involve activities and texts that provide an effective, but not overwhelming, challenge. We found both programmes to be successful in supporting children through the 2020 lockdown, particularly Reading Plus, which supported comprehension https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/reading-comprehension-strategies</p> <p>as the teachers were able to give pupils feedback through the programme. They could also identify the % children accessing online learning through both programmes and we then offered further support to those for whom this was not possible.</p> <p>£2450</p>	<p>3, 5, 6</p>

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £ 4602

Activity	Evidence that supports this approach	Challenge number(s) addressed
<i>Nuffield Early Language Intervention (small group)</i> Improve oral language skills for PP children, starting with early intervention and identification of children with barriers to learning related to speech, language and communication – Nuffield Early Language Intervention	https://educationendowmentfoundation.org.uk/projects-and-evaluation/projects/nuffield-early-language-intervention1 The Nuffield Early Language Intervention (NELI) programme is designed to improve the language skills of reception pupils (aged 4–5) and involves scripted individual and small-group language teaching sessions delivered by trained teaching assistants (TAs). NELI is published by Oxford University Press and was delivered in this trial by the University of Oxford in partnership with Elklan. The 20-week intervention consists of two 15-minute individual sessions and three 30-minute small group sessions each week, which focus on developing children’s narrative, vocabulary and listening skills, in addition to their phonological awareness and letter sound knowledge. Staff will deliver the Nuffield Early Language Intervention, having been trained in this approach during the academic year 20-21	1

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £31,194.00

Activity	Evidence that supports this approach	Challenge number(s) addressed
Embedding a nurture provision and nurturing classrooms to	Evidence suggests that children from disadvantaged backgrounds have, on average, weaker SEL skills at all ages than their more affluent peers. These skills are likely to influence a range of outcomes for pupils: lower SEL skills are linked with poorer mental	2, 3,4,6

<p>improve well-being and pupil attendance.</p> <p>Whole school Boxall Assessments to identify pupils who need targeted nurture and well being support</p>	<p>health and lower academic attainment.</p> <p>SEL interventions in education are shown to improve SEL skills and are therefore likely to support disadvantaged pupils to understand and engage in healthy relationships with peers and emotional self-regulation, both of which may subsequently increase academic attainment.</p> <p>https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/social-and-emotional-learning</p>	
<p>Parent Support Advisor full time to support hard to reach families to improve attendance, punctuality, behaviour and well-being.</p> <p>Attendance, behaviour and wellbeing measures for vulnerable children will be in line with the National average and the gap is closed between disadvantaged (and vulnerable) and non-disadvantaged groups.</p>	<p>Parental engagement refers to teachers and schools involving parents in supporting their children’s academic learning.</p> <p>It includes:</p> <ul style="list-style-type: none"> approaches and programmes which aim to develop parental skills such as literacy or IT skills; general approaches which encourage parents to support their children with, for example reading or homework; the involvement of parents in their children’s learning activities; and more intensive programmes for families in crisis. <p>Attendance</p> <p>https://d2tic4wvo1iusb.cloudfront.net/documents/projects/Attendance-REA-protocol-21092021.pdf</p> <p>Page 3 – ‘Theory of Change’ model</p>	<p>2,3,5, 6</p>

Total budgeted cost: £ 65,463.46

£12,661.54 budgeted for NTP

Further information (optional)

Additional activity

Our pupil premium strategy will be supplemented by additional activity that is not being funded by pupil premium or recovery premium. That will include:

- embedding more effective practice around Talk for Writing (as mentioned above), which is whole- school CPD to support the development of vocabulary and writing)
- utilising a [DfE grant to train a senior mental health lead](#). The training we have selected, Embedding a strategic approach to supporting Mental Health through Leeds Carnegie, will focus on collaborative working with other Mental Health Leads to embed our approaches to supporting children, staff and parents.
- offering a wide range of high-quality extracurricular activities to boost wellbeing, behaviour, attendance, and aspiration. Activities such as lego club, arts participation (crafts), focus on building life skills such as confidence, resilience, and socialising (gym and games/multisports) and STEM club. Disadvantaged pupils are tracked and encouraged/supported to participate.

Planning, implementation, and evaluation

In planning our new pupil premium strategy, we evaluated why activities undertaken previous years to ensure that our current pupils and cohorts are being targeted according to challenges identified.

We triangulated evidence from multiple sources of data including assessments, , conversations with parents, pupils and teachers in order to identify the challenges faced by disadvantaged pupils and looked at a number of reports, studies and research papers about effective use of pupil premium, the impact of disadvantage on education outcomes and how to address challenges to learning presented by socio-economic disadvantage. We also looked at studies about the impact of the pandemic on disadvantaged pupils.

We have put a robust evaluation framework in place for the duration of our three-year approach and will adjust our plan over time to secure better outcomes for pupils according to the varied challenges that they face at different stages on their educational journey.

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

Priority 1; Embedding a nurture provision and nurturing classrooms to improve well-being and pupil attendance.

Whole school Boxall Assessments to identify pupils who need targeted nurture and well being support

Our Nurture provision is well established and this was noted as part of our Inclusion Quality mark award – as a Centre of Excellence.

Children in receipt of Pupil Premium funding have accessed the Nurture provision in Ks1 and this intervention has support one specific child in building up from a part time to full time timetable.

Exclusions as a result have been reduced to 2 (2020-21), down from 15 and 12 in 2019-19 and 2019-20 respectively

Priority 2: Parent Support Advisor full time to support hard to reach families to improve attendance, punctuality, behaviour and well-being. Attendance, behaviour and wellbeing measures for vulnerable children will be in line with the National average and the gap is closed between disadvantaged (and vulnerable) and non-disadvantaged groups.

See improved areas in green and areas to address following the pandemic in red.

	Whole School	Boys	Girls	FSM	PP	SEN	EHCP
2020/2021 up to (08.07.2021)	96.61%	96.53%	96.73%	94.51%	95.25%	94.10%	95.81%
2019/2020	95.85%	95.81%	95.92%	94.56%	94.85%	94.87%	81.9%
2018/2019	95.82%	95.26%	96.68%	92.2%	93.39%	94.9%	88.11%
2017/2018	94.34%	93.48%	95.35%	90.90%	92.16%	91.03%	82.45%

Priority 3: Improve Social and Emotional Mental Health for all pupils to reduce exclusions. Improve attendance so that learning is not missed and pupils therefore make expected progress or better across the curriculum.

Exclusions during the academic year 2020-21. Were reduced again based on previous data:

2017-18 =15

2018-19=12

2019-20=3

2020-21=2

Catch up funding:

Access to Technology

Reading eggs and reading plus were purchased as interventions to support those in receipt of pupil premium funding and the wider vulnerable group. 44% of pupils in receipt of funding were unable to access this at home during a national lockdown and were therefore further disadvantaged. We purchased further technology to support home learning with the aim of 100% pupils accessing online learning in event of bubble closure or a further lockdown

IMPACT (measured during the second school closure)

Weekly monitoring of engagement with online learning enabled staff to support pupils with additional technology, track those who were unable to access the internet and encourage children who were not engage to come into school.

Rec	Y 1	Y2	Y3	Y4	Y5	Y 6
