

Focus - Winter/Spring, Materials, Plants, Polar Regions, Maps, Healthy teeth, Pancake Day and Chinese New Year

Plants

Plant a bulb or seed (cress seeds are quick and easy!). How can you make it grow? Take pictures to show what happens.

Polar Regions

Find North and South Pole on a map. Where do polar bears live? Where do penguins live?

Spring

Draw a picture of a tree in Spring.

Gingerbread Man

Can you make some gingerbread biscuits? Write a set of instructions for Mrs Burland and Mrs Plummer to follow.

Healthy Teeth

You should brush your teeth for 2 minutes morning and night. Show an adult how to brush your teeth. Ask an adult to take a photo of you brushing your teeth.

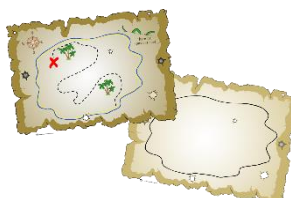

Chinese New Year

It is the Year of the Dragon. On the back of this sheet is a dragon for you to design and colour.

Treasure Maps

Draw a map for a friend to follow to find the treasure. Remember - X marks the spot!

Easter

Create your own Easter card! You can either draw one and colour it in or you can make one from different materials!

Spring Walk

As Spring starts, go on a walk to see the different signs of Spring you can spot. How do you know that it is Spring? What have you seen? What can you collect?

Chinese New Year Dragon Pattern Tracing
