

Dear Mrs Rowett,

I am writing to you because, we want to tell you about Carbon Footprint, we want to help the school become a greener and better school.

We were thinking about doing, a bake sale or sponsored run or walk.

We want to tell you about, what we need the bins for, we were thinking that we could, have 1 bin for EYFS, 1 bin for lower KS1, 1 bin for lower KS2 and 1 bin for higher KS2.

The challenges we might face are hygiene, glues or pests, staff time, weighing good waste and the last challenge might be keeping the bins clean.

The challenges can be solved by, having bins with lids and we also need to empty the, bins daily.

We also need to not leave the bins, full overnight because it might get a bit smelly.

We will weigh the bins once a week, we will also need digital kitchen scales and we will have eco-monitors to help as well.

We were also, thinking that only good waste goes into our bins.

We suggested that we should do a 4 week trial to see how well we are doing and the, 4 week trial will help the school become a, greener place.

From Aljie Wilson Year 5.
