

Year 6 Homework Challenge - Changes Over Time

We hope you enjoy completing the activities. Please take care and remember you can present them in any way you like.

Please return all homework to school by Friday 4th December but if you finish pieces sooner, bring them in to share and display! ☺

Enjoy the Challenges!

Carry out research to discover key facts about a leader from the Second World War.

Present your findings as an engaging information page that could appear in a history magazine.

Create a persuasive poster to encourage the public to look after evacuees from the cities. Think carefully about how you could be persuasive!

Make up a song or poem

to help children in across school remember how to stay safe online. You

could include the dangers of the internet and what children should do to make sure they are always safe. Make it catchy so it can be remembered!

Find out about the money used in World War 2 and then **think of** some WW2 maths word problems involving money for your friends to solve!

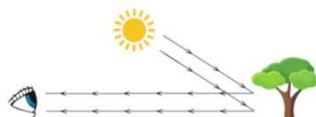

Design and make an Anderson Shelter. You may need to carry out some research first to help you make some decisions!

Write out a recipe for a home cooked meal using only the ingredients which were available during WW2 when rationing was in place. You will need to carry out some research to help you discover what ingredients (and how much) you could use. You could even have a go at making it and take some photos!

Draw a labelled diagram and explain how we see things. Use arrows and scientific vocabulary to make sure your explanation is clear and can be easily understood by others.

Write a newspaper report about the D-Day landings. Remember to include all the features of a newspaper article to engage your reader.

Research different aircrafts used during WW2 then **draw a label** a picture of one of the aircrafts.
